

Lab 5

Singleton

Piazza Bonus

- You get 1% extra if you are
 - Top 3 in student “endorsed” answers OR
 - In instructor “endorsed” answers or questions
- You get 1% extra if you are
 - Top 3 in student listeners OR
 - Top 3 askers OR
 - Top 5 answers
- So at most 2% extra
- If you are top 3 student contributors but did not fall in the above two categories, you will get 1%.

Lab 4

- Always pull before any new work
- Should only have ONE lab4
- Removing files
 - `git rm <file/folder>`
 - Commit the change
- Before push, make sure your code can compile, can pass existing tests, can pass check-style
 - Especially check-style, you will get “debt” if you don’t fix them as soon as possible
- Put member names in the project description. Directives in the lab handout.

Git log

- “Contributions” of each member
 - Just for reference. The number of lines of code and frequency of commits and commit messages
 - I “wrote” 12,000 lines of code in a week
- `git log --author=<prefix-of-name> --oneline --stat`
- Note that the output will not always contain the author name, so please write down your name on the printout

Hard Copy Submission for Lab5

- Just the first page for check-style
- Again, just the summary page of tests

Due Wednesday (10/30)
